Annual Report 2025

The printing of this annual report has been generously funded by BBF's Board of Trustees.

BBF GLOBAL RELIEF
BROTHER'S BROTHER FOUNDATION

FROM THE PRESIDENT AND BOARD CHAIR

We are pleased to tell you that through your generous support, BBF continued to expand its relief and development efforts both here at home and around the world. These efforts would not have been possible without your gracious contributions and the continuing efforts of our dedicated staff members, partners, Board of Trustees and Advisory Board members.

In 2025, BBF sent medicine, medical supplies and equipment, disaster relief provisions, and educational material to recipients in 33 countries. We also supported the installation of solar panels on rural clinics in India and Liberia, assisted with pediatric heart surgeries in Nigeria, and funded in-country programs to mitigate infectious disease, improve eye health, and address maternal care needs in Malawi. As part of the Healthcare Program, BBF sent almost 108 million doses of pharmaceuticals along with medical supplies and equipment in 119 shipments to partners in Central America and Africa along with continuing support for Ukraine. We also shipped 16 containers of books and educational material to countries including Jamaica, the Philippines and Gambia, supported education initiatives in Pittsburgh, and funded computers for an employment lab for at risk youth in a hurricane affected area in Florida. In other projects, BBF oversaw the construction of the St. Andrew's School in Mulanje, Malawi along with continuing our partnership with Hope for Ghana to help dredge and expand the Jarigu Dam. The dam will improve water quality, promote better health, and prevent waterborne diseases for over 8,000 people.

BBF's Disaster Response began in early January with assisting community members impacted with the LA Wildfires. We partnered with food banks, Federally Qualified Health Centers (FQHCs), Free and Charitable Clinics, community organizations, school districts, and animal shelters – a request made by one of our foundation donors. Our response to the flooding in Texas and the heartbreaking loss of life at a girl's summer camp was a major focus after the July 4th weekend. Additionally, BBF responded to tornadoes in Missouri, Mississippi and Kentucky, an earthquake in Afghanistan, and widespread flooding in Pakistan. This was followed by BBF's response to Hurricane Melissa in Jamaica – the strongest recorded hurricane to ever strike the country.

Locally, BBF presented an Audiology Mobile Clinic to the Eye and Ear Foundation which is being run in collaboration with researchers and students from the University of Pittsburgh. This is the fifth mobile clinic we have provided to implementation partners to assist members of our underserved communities and is working in conjunction with the EyeVan. In the same vein, BBF helped fund the purchase of a mobile pharmacy unit for the Mountain Area Health Education Center in Asheville, North Carolina to assist patients in rural communities. Our collaboration with these critical partners to assist in helping address unmet healthcare needs in both urban and rural communities has been the focus of BBF's work within the US. With great need and similar applicability in underserved areas around the world, we envision the mobile health clinic program to expand internationally.

Thank you from the bottom of our hearts for your steadfast and generous support of these efforts around the globe. We could not do it without you!

WHO WE ARE

VISION

A world where aid leads to sustainable development.

MISSION

BBF helps bridge the gap between aid and sustainability by supporting localized programs and providing essential resources in the areas of Healthcare, Infrastructure, Disaster Response, and Education (H.I.D.E).

BACKGROUND

Brother's Brother Foundation was founded in 1958 by Dr. Robert A. Hingson, a renowned innovator in public health. During his career, Dr. Hingson developed several medical devices crucial in alleviating pain and distributing vaccinations and inoculations. His most well-known invention, the needleless jet-injector or "peace gun," dramatically increased medical capabilities in developing countries by allowing for the inoculation of 1,000 people per hour with several simultaneous vaccines. Dr. Hingson's vision of a world free from diseases such as smallpox, measles, cholera and more led to the creation of Brother's Brother Foundation.

PROGRAM OVERVIEW

In 2025, BBF supported communities in 33 countries through the delivery of essential medical supplies, pharmaceuticals, educational materials, and humanitarian aid. A total of 152 shipments were sent across all programs, and more than $2.2 million was provided in grants and program support. BBF also responded to 12 major disasters—including hurricanes, tornadoes, earthquakes, and wildfires—sending 17 shipments and nearly $1 million in grant support.

Impact in Healthcare Programs

HEALTHCARE PROGRAM

The Healthcare Program is composed of three complementary areas.

Pharmaceutical Donations

The pharmaceutical program dates to 1972 when BBF began shipping pharmaceutical products to partners around the world. We receive medicine from manufacturers, wholesalers, and suppliers, which we donate to a network of partners in developing countries. Patients receive the medications through local hospitals, health systems, clinics, and health centers in Latin America, the Caribbean, Sub-Saharan Africa, and Asia.

Medical Equipment and Supplies

BBF collects medical equipment and supplies from hospitals and other donors. We ship these items, along with pharmaceuticals, to medical facilities around the globe.

Med-Surg Trips

BBF provides pharmaceuticals to physician-led teams who travel internationally and provide medical care to underserved populations. BBF provided 19 Med Surg trips with pharmaceuticals and supplies in 2025. These trips represented medicine and healthcare services to 12 countries in Asia, Africa, the Caribbean, Central and South America.

Mobile Health Clinic Program

Communication Van, Eye and Ear Foundation

BBF's Mobile Health Clinic Program continued to expand in 2025 with the addition of an audiology unit, the Communication Van, donated to the Eye and Ear Foundation of Pittsburgh. Operated by clinicians and faculty from the University of Pittsburgh and UPMC, the clinic brings hearing, speech, and related services directly into communities where access to care is often limited.

In its first months on the road, the Communication Van demonstrated how mobile healthcare can reduce barriers for patients facing transportation, financial, or insurance challenges. Services were provided at no cost in community settings, creating a more accessible pathway to care for both children and adults.

The Communication Van offers hearing screenings, comprehensive evaluations, hearing aid fittings, and follow-up support, helping connect individuals to services that might otherwise be out of reach.

Primary Care Van
Allegheny Health Network

In 2025, the Allegheny Health Network Mobile Health Clinic continued to expand access to care for low-income, uninsured, and underserved populations across western Pennsylvania. The Clinic provided medical exams, chronic disease management, behavioral and women's health services, hypertension screenings, and pediatric sports physicals.

> "The donation of the vehicle by BBF has made an immeasurable impact on our communities and will continue to do so for years to come. We are proud to be in a position to provide care to vulnerable communities in the face of uncertainty."
>
> - Kristen Macey, Project Manager, Allegheny Health Network, Primary Care Institute

EyeVan, Community Outreach and Resource Assistance Program

The EyeVan was BBF's first donated mobile health clinic and is operated by the Community Outreach and Resource Assistance Program (CORAP). During the year, CORAP hosted 42 mobile vision clinics and seven diabetic retinopathy screening events. In 2025, the EyeVan's clinics served almost 500 patients and prescribed 493 pairs of prescription eyeglasses, including 136 pairs for children.

Through partnerships with volunteer providers and student-led Eyes on Wheels events, the EyeVan brings vision screenings, eye health services, and corrective eyewear directly to individuals who might otherwise go without care. For one patient, Susan, who uses a wheelchair and has limited mobility, the availability of vision services within her residential community eliminated the challenges associated with traveling to appointments. She expressed deep appreciation for the program, noting that access to annual eye care close to home made her feel supported and valued.

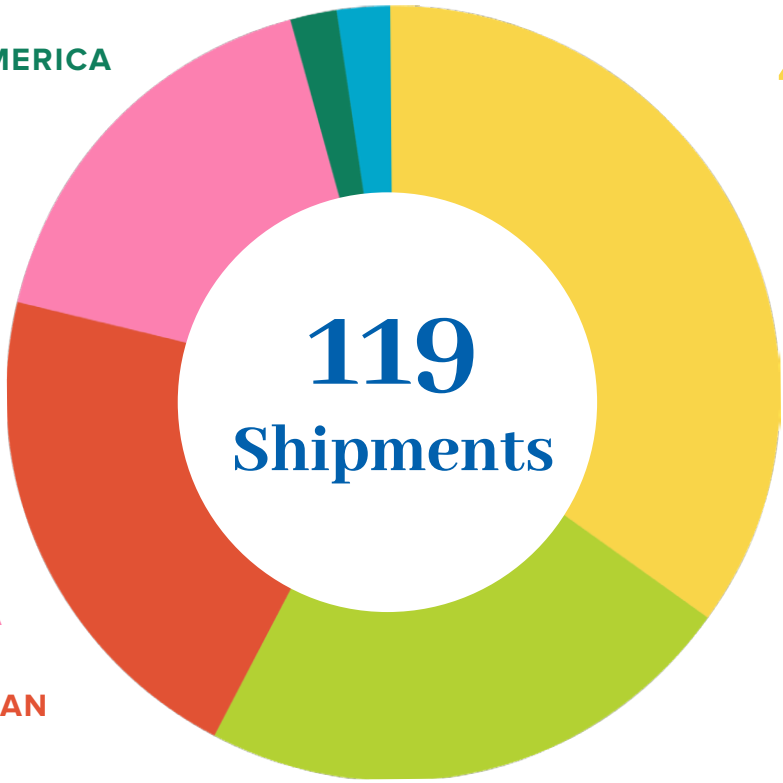

Mobile Pharmacy Van, Mountain Area Health Education Center, North Carolina

In 2025, BBF provided a grant to support the development of a Mobile Pharmacy in partnership with the Mountain Area Health Education Center (MAHEC) in western North Carolina. Designed to improve access to medications and pharmacy services in rural communities, the mobile unit will deliver prescriptions directly to patients, provide pharmacist consultations, and support ongoing care for individuals managing chronic conditions. The Mobile Pharmacy will also serve as a critical resource during future disasters, helping ensure continuity of care when traditional pharmacy access is disrupted. The project expands BBF's partnership with MAHEC, which previously received support to help restore healthcare services following Hurricane Helene.

Since 2022, BBF has donated five mobile health clinics and provided grant support for two additional mobile healthcare initiatives, expanding access to care in Pennsylvania, Kentucky, Florida, North Carolina, and Puerto Rico.

DREAM, Central African Republic

The Central African Republic continues to face one of the world's most prolonged humanitarian crises, with conflict and instability limiting access to healthcare. Many families struggle to access even basic medical care, and epilepsy remains a significant and underserved health challenge.

The Clinique DREAM healthcare center in Bangui, Central African Republic, is operated by DREAM Sant'Egidio.

To help address this gap, the DREAM Community of Sant'Egidio launched an epilepsy program in 2019, providing free, specialized care. BBF supported this effort by air shipping urgently needed anti-seizure medications to the program, helping expand access to consistent treatment. As a result, children and adults are better able to manage their condition, reducing medical emergencies and improving daily life. At the end of 2025, the program was supporting more than 1,800 patients, with many achieving seizure control, leading to meaningful improvements in health, education, and stability.

VOOM, Nigeria

BBF supported a three week medical trip to Nigeria through a grant and a shipment of pharmaceuticals to the Vincent Obioma Ohaju Memorial (VOOM) Foundation. During the trip, the medical team performed both pediatric and adult open heart surgeries and conducted dozens of cardiac catheterization procedures. Educational training was a major component of the mission. More than 12,000 hours were dedicated to training local medical personnel, and a virtual cardiovascular referral session was conducted prior to the trip.

BBF also provided a grant to VOOM to support its scholarship program. The scholarship program identifies families prior to each surgical mission and awards assistance based on financial need. The support covers patient evaluations, hospital stays, post operative follow up, and medications for recovery. By covering the full course of treatment, the program helped ensure patients receive both surgery and continued care for successful outcomes.

In 2025, VOOM performed 35 percent of all open heart surgeries in Nigeria and managed several of the country's most complex cardiac cases.

Food for the Poor

SOVEREIGN ORDER OF MALTA, GUATEMALA

In Guatemala, nearly 60 percent of the population lives in poverty with limited access to healthcare, and high rates of malnutrition and chronic illness.

BBF partnered with Food for the Poor and the Sovereign Order of Malta to send a shipment of pharmaceuticals and medical supplies. These resources helped expand access to care for individuals and families. One example is Flavio, a 62 year old living on a modest monthly pension, who faced serious health issues after being diagnosed with hypertension. Through the Association "Por Una Vida Mejor," he received free care and essential medication. "If it weren't for this help, I wouldn't have been able to buy the medicine," he said.

FUNDACIÓN CRUZ JIMINIÁN, DOMINICAN REPUBLIC

In the Dominican Republic, nearly 25 percent of the population lives in poverty without reliable access to medicine, food, or basic household items.

BBF sent a container of pharmaceuticals, medical supplies, hospital equipment, and new mattresses to Fundación Cruz Jiminián in Santo Domingo. The shipment included antibiotics and blood pressure medications, mobility aids such as canes and crutches, hospital beds and IV poles, and essential supplies like gowns, gloves, diapers, and bandages.

These resources supported hospitals and reached individuals and families through FCJ's community programs, improving access to care and basic living conditions. One recipient shared, "these mattresses have been a blessing. We used to sleep so poorly on our broken bed, but now the children and I can rest comfortably."

119	107.8M	19
TOTAL SHIPMENTS	PHARMACEUTICAL DOSES DONATED	MED-SURG TRIPS/ SHIPMENTS

Free Wheelchair Mission, Dominican Republic and Eswatini

One of BBF's donated wheelchairs reaches its destination through our partnership with Free Wheelchair Mission.

Since 2020, BBF has partnered with Free Wheelchair Mission to send healthcare shipments to partners in the Dominican Republic, Eswatini, and Pakistan. In 2025, the partnership supported eight shipments that delivered medical equipment, consumable supplies, and pharmaceuticals to more than 15 hospitals and clinics. In the Dominican Republic, hospitals and primary care units received resources to strengthen patient services, while in Eswatini, supplies supported inpatient and outpatient care at the Miracle Campus, expanding access to essential healthcare.

St Joseph's Mission Hospital, Malawi

In 2025, BBF provided St. Joseph's Mission Hospital in Nguludi, Malawi, with a shipment of 75 hospital beds and mattresses. BBF has partnered with the hospital since 2015, supplying critically needed medical equipment and resources. The new beds replaced aging equipment throughout the facility, enhancing patient comfort and supporting quality healthcare services.

> "Your generous donation of beds and mattresses will make a significant impact in our wards. This thoughtful contribution will provide comfort and dignity to children admitted in these wards."
>
> Sister Mercy Kanyumbu, DW, Principal Hospital Administrator

Blossoming Beyond

BBF's Blossoming Beyond Breast Cancer Fund focuses on two key areas of survivorship: access to mental health and improved early detection through imaging. Through grants to a partner organization, BBF continues to address the emotional and diagnostic challenges many breast cancer patients face after diagnosis and treatment.

In 2025, BBF continued its support of Keepers of the Flame Foundation (KotF) in Georgia, building on the impact of prior funding for breast cancer survivorship services. This ongoing partnership has allowed KotF to expand its counseling program, increasing access to professional mental health support for survivors navigating life after treatment. Through these efforts, more individuals are able to access consistent, low- or no-cost therapy services that address the long-term emotional effects of a breast cancer diagnosis.

Cross Catholic Outreach, Central America

Across Central America, poverty, limited healthcare infrastructure, and geographic barriers continue to restrict access to medical care, particularly in rural and underserved communities. Through Cross Catholic Outreach, BBF sent shipments of pharmaceuticals, medical supplies, hospital equipment, and mobility aids to partner organizations serving vulnerable populations in Honduras, Guatemala, and El Salvador.

These resources strengthened healthcare delivery across the region. In Honduras, donated hospital beds supported a community health center serving a population of more than 76,000, improving patient care capacity as the facility expands its services. In Guatemala, mobility aids such as wheelchairs, walkers, and transportation carts provided elderly individuals in remote villages with greater safety, independence, and improved quality of life. In El Salvador, donated medical equipment and supplies supported the renovation and expansion of a community clinic, increasing access to women's health services, pediatric care, cardiology, and laboratory testing.

> "Your donation provides more than just medicine. It offers hope, continuity of care, and a better quality of life for those most vulnerable."
>
> Jose Marrochi, Friendly Hand Foundation
> Cross Catholic Partner

Med-Surg, El Salvador Global Smile Foundation

BBF supported a med-surg trip to El Salvador led by Global Smile Foundation, a nonprofit dedicated to providing cleft care for children around the world. BBF contributed medical and surgical instruments used by the team during the outreach.

The volunteer team included surgeons, anesthesiologists, operating room nurses, dentists, orthodontists, and other healthcare professionals. During the trip, the team screened 77 patients, performed 39 surgical procedures, and provided 188 dental procedures. The 2025 mission marked Global Smile Foundation's 20th year conducting surgical outreach in El Salvador.

Revived Soldiers Ukraine

BBF provided a grant to Revived Soldiers Ukraine (RSU) to expand rehabilitation capacity through the addition of advanced rehabilitation equipment at treatment centers in Ukraine and to help cover medical and prosthetic costs for wounded soldiers receiving specialized care in the United States.

BBF's grant supported rehabilitation services at Next Step Ukraine, where patients receive intensive physical rehabilitation following traumatic injuries, including paralysis and limb loss. The grant also helped offset medical and prosthetic expenses for wounded soldiers brought to the U.S. for treatment not readily available in Ukraine.

Heart and Valor, Ukraine

Heart Valor Foundation was established in March 2022 and operates as a volunteer-run nonprofit organization focused on supporting Ukrainians affected by the war. The organization raises funds and public awareness to support rehabilitation for injured Ukrainian children and to assist wounded soldiers in their recovery. BBF provided a grant to Heart and Valor Foundation to support rehabilitation services for Ukrainian children receiving care at the Oplich Hub Center in Ukraine.

Operation Mordechai, Ukraine

BBF provided two grants to Operation Mordechai in 2025. The first grant supported a lifesaving medical evacuation mission that transported six severely wounded Ukrainian soldiers from the Army Medical Center in Lviv to hospitals in the United States for advanced treatment. The soldiers' critical conditions required a specially equipped private aircraft and coordinated international effort. Upon arrival, the soldiers were immediately transported to hospitals where medical teams were standing by to begin urgent care and rehabilitation. BBF's second grant supported medical care for pediatric patients.

INFRASTRUCTURE PROGRAM

STRENGTHENING COMMUNITIES THROUGH ACCESS TO CLEAN WATER, SANITATION, AND SUSTAINABLE ENERGY.

The Infrastructure Program invests in solar power and WASH (water, sanitation, and hygiene).

SOLAR

Since early 2015, BBF has provided grants to help local partners install solar panel systems. The program was initiated in Liberia and has since expanded to Puerto Rico, Ghana, and India.

WASH

The United Nations Sustainable Development Goals highlight WASH as an international public health priority. BBF provides grants to install water and sanitation stations in developing countries, which include toilets, plumbing, hand washing stations, rainwater harvesting, and water filtration systems.

Hope for Ghana, Ghana

BBF provided a grant to support the largest clean water initiative undertaken to date by Hope for Ghana. The project, located in Jarigu in Ghana's Northern Region, will provide reliable, year-round access to safe water for more than 8,000 residents in Jarigu and neighboring communities.

The project will improve the community's existing dam, which often runs dry during the dry season and can become contaminated when water levels are low. The first stage dredged and expanded the dam to increase its capacity and improve water retention. A second phase will add filtration and chlorination systems along with protective measures to safeguard the water supply and create a safer, more sustainable source of water for surrounding communities.

> "This project is revolutionary for Jarigu and its neighboring villages. By securing a clean, sustainable water source, we are not just providing water—we are saving lives, improving health, and building a future of hope."
>
> - Dr. Steve Greene
> President and Founder of Hope for Ghana

Pickering Energy Solutions, Liberia

BBF continued its long-standing partnership with Pickering Energy Solutions to support solar power systems at hospitals and rural clinics across Liberia. Together, the partners have installed solar power systems at dozens of healthcare facilities, providing reliable electricity for lighting, vaccine refrigeration, laboratory services, and essential medical care in remote communities.

In 2025, the program focused on maintaining and upgrading these installations. Many of the original systems used lead-acid batteries that are now reaching the end of their lifespan. BBF and Pickering have begun replacing these systems with newer lithium-ion batteries designed to provide longer-lasting and more reliable power. One example is the AFBM Clinic near Gbarnga in Bong County, where a solar system installed in 2016 was recently refurbished with a new 14 kWh lithium-ion battery. The upgrade helps ensure the clinic can continue operating 24-hour medical services and laboratory testing for diseases such as malaria.

8,000+

RESIDENTS WILL HAVE ACCESS TO CLEAN WATER
WHEN THE JARIGU DAM PROJECT IS COMPLETE

Solar Village Project, India

Frequent power outages at rural health facilities can disrupt patient care, compromise vaccine storage, and limit access to essential diagnostic services. In Bihar, India, a recent needs assessment identified multiple government health and wellness centers experiencing outages lasting up to 10 hours a day, creating serious challenges for healthcare providers working to deliver consistent care.

To help address this need, Brother's Brother Foundation partnered with Solar Village Project to fund the installation of a 1 kW rooftop solar system with a 2 kWh battery backup at the Pawana Health and Wellness Centre. BBF's grant supported the design, installation, and multi-year operations and maintenance of the system, which now powers lighting, vaccine refrigeration, and critical medical equipment. The system was commissioned within two months and is helping ensure reliable care for an estimated 35 patients each day.

$276K PROGRAM IMPACT

$22K GRANTS AWARDED

SUPPORTED WORK IN GHANA, LIBERIA, AND INDIA

DISASTER RESPONSE PROGRAM

In the Disaster Response Program, BBF works directly with local partners to provide medical and humanitarian support in areas impacted by natural disasters and conflict.

BBF has responded to disasters and humanitarian crises for many decades. We work hand-in-hand with first responders and relief agencies to provide ongoing support. We source and stage resources, create partnerships with transportation networks, provide grants, and coordinate with a variety of organizations such as Voluntary Organizations in Disaster (VOADs), Ministries of Health, hospitals, NGOs, and other medical facilities. BBF's support extends beyond medical care to address humanitarian needs such as refugee sustenance and shelter.

BBF Responded to 12 Major Disasters in 2025

$935K Awarded in Grant Support

Disaster Response Shipments

- 5 CALIFORNIA WILDFIRES
- 6 UKRAINE WAR
- 2 HURRICANE MELISSA
- 1 MISSOURI TORNADOES
- 1 PAKISTAN FLOODS
- 1 TEXAS FLOODS
- 1 PITTSBURGH LOCAL DISTRIBUTION

In January 2025, drought conditions and extreme Santa Ana winds fueld a series of wildfires across the Los Angeles metropolitan area. The fires forced mass evacuations, destroyed thousands of homes and structures, and resulted in significant loss of life, leaving communities across the region in urgent need of support. BBF responded by working with food banks, Federally Qualified Health Centers, free and charitable clinics, community organizations, public school districts, and animal shelters to assist those impacted by the fires.

Food Banks

LOS ANGELES FOOD BANK

BBF provided multiple grants and shipments of hygiene kits to the Los Angeles Regional Food Bank. The Food Bank distributed food, water, and essential supplies through mobile sites and community events. These efforts reached families facing displacement and financial hardship and ensured access to nutritious food and basic necessities while recovery continued.

WESTSIDE FOOD BANK

BBF provided two grants and shipments of hygiene kits and cleanup supplies to Westside Food Bank to help expand food distribution and relief efforts for those affected by the Palisades Fire. The Food Bank supported mobile markets and partner pantries, and launched monthly resource fairs providing food, meal boxes, hygiene items, and connections to additional services.

"Your generosity has been the backbone of our work this year — through everyday hunger relief and in the face of disaster. Every meal shared, every pantry stocked, and every child nourished is because you chose to act."

Federally Qualified Health Clinics:

UNIVERSAL COMMUNITY HEALTH CENTER

BBF provided a grant to Universal Community Health Center to support its food distribution program for families facing food insecurity in South Los Angeles. As a Federally Qualified Health Center, UCHC provides medical and behavioral health services while also addressing nutrition as a key part of overall health. BBF's funding supported the purchase of nonperishable food and helped strengthen outreach, nutrition education, and enrollment in assistance programs.

Free and Charitable / Nonprofit

VIDA MOBILE CLINIC

BBF provided a grant to Vida Mobile Clinic to support medical care and essential supplies for individuals impacted by the Altadena Eaton Fire. Based in the San Fernando Valley, Vida reached more than 500 people, providing items such as blood pressure monitors, walkers, and other resources to support ongoing health needs while strengthening connections with local community organizations to expand access to care.

"The funds provided truly helped us connect with the victims of the Eaton Fire. We not only were boots on the ground for these individuals, but also were able to establish and maintain partnerships due to the funds." – Vida Mobile Clinic

UNITED AMERICAN INDIAN INVOLVEMENT

BBF provided a grant to United American Indian Involvement, Inc. (UAII) to expand wildfire relief and recovery services for Native American families and others affected in Los Angeles. UAII operated an emergency shelter providing housing, meals, medical care, and mental health support, and established a community resource center offering food, clothing, and essential supplies. Mobile outreach clinics delivered medical, dental, and behavioral health services. Efforts also supported displaced families through housing placement, case management, and workforce programs.

Community Organization / Local Nonprofit

YOUNG AND HEALTHY

BBF provided a grant to Young and Healthy to support families affected by the Eaton Fire. Serving communities in Pasadena, Altadena, and Sierra Madre, the organization delivers healthcare access, mental health support, and essential resources to underserved families. Young and Healthy provided clothing, food, and personal care items, hosted community distribution events, and continued to offer direct support through case management and health services.

Animal Shelter

BEST FRIENDS ANIMAL SOCIETY

At the request of one of BBF's foundational supporters, BBF directed funding to support animals impacted by the California wildfires. A grant to Best Friends Animal Society helped sustain emergency response efforts, including relocating more than 1,700 animals from overwhelmed shelters, distributing more than 20,000 pounds of pet food and supplies to displaced families, and supporting reunification and adoption efforts.

Texas Floods, USA

In July 2025, flooding over the July 4 weekend caused widespread devastation, claiming lives and damaging homes and infrastructure across multiple communities. BBF responded with grants to TEXSAR and the San Antonio Food Bank. TEXSAR deployed 130 trained volunteer responders to Kerr, Burnet, and San Saba counties and contributed more than 7,000 volunteer hours, including more than 1,100 K9 search hours. The San Antonio Food Bank launched emergency mobile distributions throughout impacted communities across its 29-county service area, reaching 250 to 500 households per event with food, water, cleaning supplies, hygiene items, diapers, pet food, and other essential resources.

Tornadoes, Kentucky, Mississippi, Missouri

Tornado activity surged across the United States in 2025 as severe outbreaks in March and April caused widespread destruction in Mississippi, Missouri, Alabama, Arkansas, and Illinois. Multiple EF3 and EF4 tornadoes damaged homes, displaced families, and strained local emergency response systems. In response, BBF provided grants to regional food bank partners supporting recovery efforts. BBF partnered with Mississippi Food Network to help replenish disaster supplies, including food boxes and bottled water, supporting its nine-region emergency response network and 430 partner agencies. Earlier in the year, BBF also supported Southeast Missouri Food Bank as it expanded emergency food distributions for storm-impacted communities.

Middle East War, Gaza

Widespread destruction in Gaza has left the majority of families without permanent housing. Approximately 91 percent of homes have been damaged or destroyed. As colder months arrived, displaced families faced increasingly dangerous living conditions due to lower nighttime temperatures and increased rainfall. BBF provided a grant to Life for Relief and Development (LIFE) to support the procurement and distribution of winterized tents designed to provide stronger protection from cold, wind, and wet weather, offering displaced families safer temporary shelter amid the ongoing crisis.

Hurricane Melissa, Jamaica

Hurricane Melissa struck Jamaica on October 28, 2025, as a Category 5 storm with sustained winds exceeding 185 miles per hour. It caused widespread flooding, landslides, infrastructure damage, prolonged power and water outages, and major agricultural losses across the island. In response, BBF provided grants to two partners supporting emergency relief efforts.

FOOD FOR THE POOR

BBF's grant to Food For The Poor supported large-scale disaster response and logistics operations across Jamaica, including the staging, warehousing, and distribution of food, medical supplies, hygiene items, building materials, and water purification systems. In communities cut off by flooding and landslides, helicopter airlifts delivered critical food and water to isolated residents.

CROSS CATHOLIC OUTREACH

BBF provided a grant to Cross Catholic Outreach to support emergency health and disaster response efforts. Funding helped coordinate the delivery of food, medicine, and medical supplies to affected communities as local partners worked to address urgent humanitarian needs in the aftermath of the storm.

Monsoon Flooding, Pakistan

Severe monsoon flooding in Pakistan's Punjab Province caused widespread destruction in 2025. Thousands of people were displaced and many families were left without shelter. In response, BBF provided a grant to Life for Relief and Development (LIFE) to support emergency shelter efforts for families who had lost their homes completely. Following field assessments to identify the most vulnerable households, LIFE distributed 105 emergency shelter tents that provided immediate protection from rain, sun, and harsh weather conditions. These temporary shelters offered displaced families a safer place to stay as recovery and rebuilding efforts began.

Earthquake, Afghanistan

In September 2025, a powerful earthquake struck Afghanistan's Kunar Province, destroying homes and leaving hundreds of families without reliable access to food or shelter. In response, BBF provided a grant to Life for Relief and Development (LIFE) to deliver emergency food assistance to 150 households. More than 1,000 individuals received food baskets containing flour, rice, macaroni, chickpeas, sugar, semolina, salt, and cooking oil. As recovery continued and colder weather set in, many displaced families remained without adequate protection from the elements. BBF provided an additional grant to fund the distribution of heavy winter blankets, coats, hats, and gloves to help meet urgent seasonal needs. Both projects were implemented in coordination with local leaders to identify vulnerable households and ensure aid reached communities safely.

Typhoon, Philippines

Following a devastating typhoon in the Philippines in 2025, communities in Cebu Province faced unsafe living conditions, contaminated water sources, and significant cleanup needs as floodwaters left homes filled with mud and debris. In response, BBF provided a grant to support relief efforts led by Children International and its local partner, Ramon Aboitiz Foundation Inc. Based on a rapid needs assessment, the project shifted from a planned water filtration purchase to more immediate emergency support. BBF's funding provided potable drinking water and essential cleaning supplies, including tools to help families safely clear their homes, reaching more than 7,000 typhoon-impacted families across nine local government units.

We are deeply grateful to Brother's Brother Foundation. Their support enabled Children International to address urgent water, sanitation, and health needs at a critical moment for families. This partnership helped protect children's well-being and reinforced the importance of standing with communities during times of crisis.

- Children International, responding to BBF's typhoon relief efforts

$19+
MILLION
Impact in Education Programs

EDUCATION PROGRAM

The Education Program helps equip students with the resources they need to succeed academically and build brighter futures.

Books & Supplies

The Education Program began when publishers donated books to BBF to supply schools around the world. BBF's donors range from publishers such as McGraw Hill to local schools undergoing curriculum changes. Since then, we expanded the program to include a large variety of supplies such as computers, software, and sewing machines to meet the specific needs of our partners.

Facility Rehab and Enhancement

Overlapping with the Infrastructure Program, BBF works with local communities to rebuild and enhance educational buildings damaged by natural calamities. Installation projects include solar power systems and sanitation stations.

Educational Training

In 2021, BBF began providing grants to support the development of local education and vocational programs.

Vita Nova, Palm Beach County, Florida

Vita Nova Inc. is a nonprofit organization in Palm Beach County, Florida, that provides housing, education, and employment support for young adults experiencing homelessness or aging out of foster care. Through its Pathways to Employment program, Vita Nova helps youth build the skills needed to pursue stable employment and achieve long term independence.

With support from BBF, Vita Nova recently installed eight new 24 inch iMac computers in its refurbished Employment Lab. The updated space provides youth with access to reliable technology and internet, allowing them to prepare resumes, search for jobs, practice interview skills, and complete online training programs. By strengthening access to digital tools and career resources, the Employment Lab helps participants build confidence and develop the skills needed to enter the workforce.

> "We are grateful that you partnered with us to provide this wonderful facility for our homeless youth. It is our hope that in the future the Brother's Brother Foundation and Vita Nova Inc. will collaborate in continuing to help provide resources and opportunities for homeless youth in Palm Beach County."

Education Partnership, Pennsylvania

The Education Partnership works to ensure that students and teachers in under-resourced schools across Southwestern Pennsylvania have access to the supplies needed for everyday learning. By distributing free school materials throughout the year, the organization helps remove barriers that can limit student participation and engagement in the classroom.

BBF sponsored Pittsburgh West Liberty PreK-5 School in Allegheny County through the Adopt-A-School program for a third consecutive year. This support provided every student with a personal school supply kit filled with age-appropriate materials, ensuring students have the tools they need to fully participate in their education.

Textbook Shipments, Philippines, The Gambia, Jamaica

BBF shipped 13 containers of books and education materials to the Philippines in partnership with Children International for distribution to schools and community programs across the country. The shipment included English and math textbooks along with teacher edition packages designed to support classroom instruction and strengthen literacy programs. The books were distributed to schools, community organizations, and local government units across Luzon, Visayas, and Mindanao, reaching hundreds of distribution sites and more than 200,000 students. Additional shipments included one container sent to The Gambia through ChildFund International and two containers delivered to Jamaica in partnership with Food For The Poor.

School Construction, Malawi

In 2025, construction was completed on a new secondary school campus at St. Andrew's Mission Secondary School in Mulanje, Malawi. The facilities opened in time for students to begin the fall school term. Funded by the Eden Hall Foundation, the new campus was built to expand the school's capacity and improve learning conditions for students. The new campus includes a dormitory, classrooms, restrooms, a biology lab, and a computer lab, providing additional space and resources to support students at one of the region's leading secondary schools.

In addition to overseeing construction, BBF also provided a grant for the local purchase of desks and other classroom furniture, ensuring the new facilities were fully equipped for teachers and students.

Action Pact, Georgia

The 13th Annual Back-2-School Blowout in Effingham County, Georgia brought together nearly 1,500 students and their families for a day of school supply distribution, community resources, and services designed to help students begin the school year prepared to learn. Organized by Action Pact, the event included dozens of community partners and volunteers working together to support local families. BBF sponsored the event's hydration station, helping keep attendees cool during the August gathering. The Back-2-School Blowout provides students with essential supplies and services while connecting families with programs that support education and community well-being.

Bogomolets National Medical University, Ukraine

BBF provided a grant to West Penn Allegheny Health System to support specialized training for clinicians from Bogomolets National Medical University in Kyiv. Three professionals completed a two week radiation oncology training at the Allegheny Health Network Cancer Institute in Pittsburgh, gaining hands on experience in operating advanced radiation therapy equipment. This training prepared the team to support expanded cancer treatment services in Kyiv and strengthened their capacity to deliver advanced care.

Music in World Cultures, Ukraine

BBF provided a grant to Music in World Cultures to to support a new season of summer music camps for children in Ukraine. The weeklong day camps are scheduled in communities affected by war, displacement, and occupation. They offer children a chance to sing, play instruments, participate in games and movement activities, and share meals together. Beyond recreation, the camps are designed to provide a structured and supportive environment where children can connect with peers, express themselves, and experience a sense of normalcy amid the ongoing realities of conflict.

Med Global, Ukraine

BBF provided a grant to MedGlobal to support advanced trauma training for surgeons treating battlefield injuries. The training helped equip Ukrainian medical professionals with specialized techniques needed to care for severely wounded patients and strengthen the country's capacity to respond to ongoing medical needs created by the war.

VOLUNTEER PROGRAM

600+ VOLUNTEERS IN 2025

BBF's Hygiene Kit Program provides individuals and families with essential personal care items during times of crisis. In 2025, more than 600 volunteers from organizations including UPMC, Cisco Systems, Atrium Global, Highmark, Covestro, Howmet Aerospace, the Montour Boys Volleyball Team, and BNY Mellon assembled hygiene kits at BBF's Pittsburgh facility. The Bethel Park Police Department also organized a community-wide supply drive, donating a truckload of hygiene items to support the program.

In 2025, BBF distributed 17,612 volunteer-assembled hygiene kits valued at more than $86,000 to communities affected by wildfires, tornadoes, flooding, and hurricanes across the United States and Jamaica.
